

SAE Journal Index

Volume 66, January to December, 1958

Articles here indexed are classified and listed only by the headlines under which they were abridged in SAE Journal.

Abbreviations Used:
January, Jan
February, Fe
March, Mr

April, Ap
May, My
June, Je

July, Jl
August, Ag
September, Se

October, Oc
November, No
December, De

Numbers after abbreviation of month refer to page numbers.

A	
ACCARDO, N. A.	
Diagnosing Engine Troubles	My 54-56
(Co-author E. Eugene Eklund)	
ACCIDENTS AND ACCIDENT PREVENTION (AIRCRAFT)	
Air Force Lowers Major Accident Rate, Col. J. C. Bailey Jr	Je 127-128
Anti-Collision Devices for Aircraft, Wilson Wong	My 33-34
Cooperative Collision Detection, Y. J. Liu and J. O. Campbell	My 84-85
Hydrodynamic Model Testing, Peter Crewe	Oc 64-66
New Open Ejection Seats, Arnold I. Beck and George Hildebrand	Oc 67-69
Safe Pilot Ejection Level Drops to 500 Ft, Joseph H. Dressel	Jl 119
Selection and Design of Escape Capsules, Donald M. Root	No 46-50
Two Ways Available To Stop Aircraft Skids, G. H. Collier	Ap 134, 136
ACCIDENTS AND ACCIDENT PREVENTION (NONAIRCRAFT)	
Lap Belts Need Sound Design, Col. John P. Stapp and Lt. D. L. Enfield	Se 30-31
New Concepts Entering Safety Field, Alan G. Loofbourrow	Se 119
Vehicle-Road Relationship, Louis C. Lundstrom	Se 30-31
What Car Structure Best Survives Crashes? D. M. Severy and J. H. Mathewson	Se 107
ADAMS, J. E.	
Europe Is Catching Up on Quantity Production Methods	Ag 92-93
ADAMS, W. J., Jr.	
Evaluating Tractor Steering and Traction	Oc 134, 136
ADDITIVES, FUEL	
Better Avgas, Frederick P. Glazier	Je 84-85
Fuel Additives Need Engine Life Test O.K., Robert V. Kerley	Fe 114, 116
Fuel Additives Reduce Gum Deposits, John F. Beach	Je 102
High Compression Ratios Bring a New Problem	Rumble
	Se 72-76
How an Oil Company Picks a Fuel Additive, Walter G. Ainsley	Jan 118, 120
Trialkyl Phosphines Reduce Octane-Requirement Buildup, A. V. Mrstik and R. B. Payne	Jan 71-73
ADDITIVES, OIL	
New Developments Bring Better Oils, J. A. Miller, L. M. Hartmann, and J. A. Tantet	Se 108, 110
Radioactivity Traces Piston-Ring Wear, J. S. Batsold, J. V. Clarke, Jr., and J. F. Kunc	My 81-83
Trends in Diesel Lubes, E. M. Johnson and H. V. Lowther	Je 75
AERODYNAMICS	
Heat Limits Hypersonic Flight, W. F. Radcliffe	Jl 86-87
"Hot-Shot" Wind Tunnel Uses Arc Heating, Ronald Smelt	De 54-55
Manned Aircraft to Manned Satellites, K. E. Van Every	Jl 64-67
Porous Walls Solve Transonic Tunnel Troubles, J. T. Kenney, P. V. H. Serrell, and Y. N. Yu	Oc 129, 131
AINSLEY, WALTER G.	
How an Oil Company Picks a Fuel Additive	Jan 118, 120
AIR CARGO	
Lockheed Lightning Loading System, E. W. Fuller	De 74-76
and R. F. Stoessel	
AIR CONDITIONING	
Air Conditioning the Lockheed Electra, J. G. Kristian and E. S. McCarthy	De 58-62
Cooling the Lockheed Electra, Bernard L. Messinger	Fe 46-48
The Air Conditioning System of the DC-8, A. A. Hershfield	Oc 32-34

AIRCRAFT ACCESSORIES AND EQUIPMENT	
Air Conditioning the Lockheed Electra, J. G. Kristian and E. S. McCarthy	De 58-62
Airborne Computer, Edward L. Braun and Geoffrey Post	Fe 63-66
Answers Found to 1000F Wear and Galling Problems, C. H. Cannon	Ag 86
Anti-Collision Devices for Aircraft, Wilson Wong	My 33-34
Cooling the Lockheed Electra, Bernard L. Messinger	Fe 46-48
Cooling vs High Temp Electronic Components, R. R. Janssen	Jan 129
Cooperative Collision Detection, Y. J. Liu and J. O. Campbell	My 84-85
Design Testability Into Weapon Systems! J. M. Pomykala	Mr 48-50
Don't Overlook Merits of Liquid Oxygen Systems, Paul L. Catron	Jan 78-80
Future Aircraft Electrical Systems Predicted, Karl Martines	Jan 68-70
High-temperature Bearings, Howard B. Johnson, Thomas Barish, R. J. Eschborn, C. M. Ong, R. S. Langdon, Arthur S. Irwin, Carl L. Dellinger, R. S. Barnett, Robert L. Johnson, W. H. Ragborg, and T. W. Bakewell	Ap 28-33
Instrument Pictures Flight for Jet Pilot, Michael V. Fiore	Je 103
Jet-Deflection Devices, Uwe H. von Glahn and John H. Povolny	Jan 64-65
Missile Auxiliary Power, Paul C. Ricks	Jan 38-40
Modulator Reverser Control Tames Jet Thrust, John Burnette and Donald Moses	Jl 38-39
Navy Planes Can Land in All Weather, A. B. Winick and J. L. Loeb	Ag 78-79
New Instrument Indicates Take-Off Progress, Jack Andress and E. H. Schroeder	Ag 72-73
1000 F Pneumatic Servo System, C. H. Cannon	Ap 70-71
Piloted Flight Control Systems, L. W. Strobel	No 93-96
Range Capability for Turbojet Pilots, Floyd A. Andrews	Je 60-61
Safe Pilot Ejection Level Drops to 500 Ft, Joseph H. Dressel	Jl 119
Simplicity Features Ground Speed Indicator, J. R. Iverson	Jl 117-118
The Air Conditioning System of the DC-8,	
A. A. Hershfield	Oc 32-34
There's a Place for High-Pressure Pneumatics As Well as Hydraulics, H. E. Wright	Mr 90-94
Two Ways Available To Stop Aircraft Skids, G. H. Collier	Ap 134, 136
Vibration Isolators for Missiles and Aircraft, Sheldon Rubin	Fe 67-68
What to do About Airborne Electronic Component Failures, Carl A. Golucke	De 88-90
AIRCRAFT DESIGN AND PERFORMANCE	
Allison 501-D13 Turboprops, Fred H. Steuber	Jl 55
B-58 Features Adhesive-Bonded Structures, W. K. Bailey	Se 39-41
Boeing 707 Fuel System, E. J. Oools	De 63-66
Boeing 707 Jet Sires a Family, M. L. Pennell	De 77-78
Brazed Honeycomb Sandwich, Floyd F. Rechin	Oc 56-63, No 66-69
British Alert in Aeronautical Research, William Littlewood	Jan 61-63
Computers Solve VTOL Hovering Problems, George W. Smith	Ap 129-130
Convair Test Stand, A. L. Minella and R. E. Morris	Mr 96
Convertiplanes, R. L. Lichten	Jan 30-32

DC-8, L. R. Jordan and C. M. Anble	De 49-52
DC-8 Fuel System is Independent of Auxiliary Power, M. A. O'Connor and W. B. King	No 32-35
DC-8 Jet Transport, Ray D. Kelly	My 57
Designing for Aircraft Reliability, George S. Schairer and Herbert S. Clayman	Jan 76-77
Goodyear's Inflatorplane, G. W. Kennedy	Je 32-33
Improving Aerodynamic Smoothness Requires Concerted Effort, R. J. Nicholson	Mr 70-71
Inelastic Design Steps Up Performance, G. H. Sprague and P. C. Huang	Jan 46-49
Jet Aircraft Shrinking the World, James J. Bingham	Je 122
Jet-Deflection Devices, Uwe H. von Glahn and John H. Povolny	Jan 64-65
Jet-Driven Lifting Rotor, Kurt H. Hohenemser	Je 59
Landing and Take-off Performance of Transport Aircraft, John G. Lowry	Je 80-82
Making the Jet Transport Pay, J. T. Dymont	Ag 63
Manned Aircraft for Manned Satellites, K. E. Van Every	Je 64-67
Modulator Reverser Control Tames Jet Thrust, John Burnette and Donald Moses	Je 38-39
9 Problems to Challenge Tomorrow's Engineers, C. C. Furnas	Je 46-47
Q-C Engineer Links Design and Production, C. O. Stump ..	Fe 84
Rotating-Thrust VTOL Proves Feasible, James A. O'Malley, Jr.	Mr 41-46
Russian TU-114 Turboprop Transport, Secor Browne	Je 61
Ryan Vertiplane, Burt Winslow	Ap 65-66
7 Physiologic Considerations in Design for High-Speed, High- Altitude Flight, James W. Raeke	Ag 52-55
Short Take-Offs for Supersonic Aircraft, H. C. Higgins	My 61
Shrouded Rotor Convertiplane Design Bridges Helicopter-Airplane Gap, R. S. Ross and R. S. Johnson, Jr.	Ag 45
6 Soviet Transport Airplanes, Secor D. Browne	Ap 53-56, My 26-29
The 1975 Supersonic Jet Transport Will Fly at 65,000 Ft., G. C. Rapp	Je 74-76
3 VTOL Speed Ranges, W. Z. Stepienewski	De 62
TU-104A Serving Copenhagen Illustrates Russian Design Ideas, Hugh Harvey	My 28-29
2000 F Structures Are Possible Now, Harry A. Pearl	Ag 70-71
Variable-Geometry Inlet, James H. Marvel and John Lytle	Ag 32
Vertical Tail Aids Spin Characteristics, J. K. Wykes	Fe 87
X-15 Test Pilots, Alvin S. White	Se 51
AIRCRAFT ICING New Aid for Icing Studies, C. H. Fish and J. B. Werner ..	Je 80-81
AIRCRAFT MAINTENANCE Automatic Maintenance in Aircraft Promotes Safety, Romie A. Taylor	Jan 123
Automation, Arthur J. Morrow	Jan 45
Computer Keeps an Eye on Spare Parts, S. E. Parks	Ag 34-38
Computers Could Aid Aircraft Utilization, W. A. Page	Ag 112
England's Jet Overhaul Operations, David Kravitz	Je 73-74
Helicopter Service Costs Tumbling, T. R. Pierpoint and R. S. Leslie	Je 58-60
Procurement Can Reduce Future Maintenance Costs, C. C. Hasty, Jr.	Jan 124, 126
SAS Builds New Facilities, Frances Weeden	Mr 79-81
AIRCRAFT, PERSONAL Goodyear's Inflatorplane, G. W. Kennedy	Je 32-33
AIRCRAFT, ROTATING WING Convertiplanes, R. L. Lichten	Jan 30-32
Helicopter Service Costs Tumbling, T. R. Pierpoint and R. S. Leslie	Je 58-60
20-Passenger Helicopter by 1960	Fe 36
Vibration Bedevils Helicopter Designer, B. W. Szyrmer ..	Oc 129
AIR POLLUTION Exhaust Studies Raise New Queries, Gilbert Way and W. S. Fagley	My 105
Oxidation Catalysts Reduce Hydrocarbons in Automobile Exhaust Gas, E. F. Hill, W. A. Cannon, and C. E. Welling	Jan 36-37
AIRPORTS AND AIRWAYS Cooperative Collision Detection, Y. J. Liu and J. O. Campbell	My 84-85
Jet Transports Need Ground Service to Match Their Superior Flight Service, Marvin Whitlock	Fe 39-41
Keeping Fuel Clean Enough for Turbines, C. E. Loesser, D. D. Love, and A. R. Ogston	No 53-57
Landing and Take-off Performance of Transport Aircraft, John G. Lowry	Je 80-82
9 Problems to Challenge Tomorrow's Engineers, C. C. Furnas	Je 46-47
AIR REGULATIONS Amendment Advances Civil Air Regulations, Oscar Bakke	Je 122, 124
AIR TRANSPORT Airlines Can Use Computer Techniques, Lawrence Rosenfeld	Je 101
Boeing 707 Jet Sires a Family, M. L. Pennell	De 77-78
Computers Could Aid Aircraft Utilization, W. A. Page	Ag 112
DC-8 Jet Transport, Ray D. Kelly	My 57
Digital Computers Aid Airlines, A. C. Butterworth and G. E. Hull	Ap 43
How to Fly a Jet Transport, D. P. Germeraad	Je 86-89
How to Make Jet Transports Pay, Ray D. Kelly	Oc 136
Instrument Pictures Flight for Jet Pilot, Michael V. Fiore	Je 103
Jet Aircraft Shrinking the World, James J. Bingham	Je 122
Making the Jet Transport Pay, J. T. Dymont	Ag 63
9 Problems to Challenge Tomorrow's Engineers, C. C. Furnas	Je 46-47
Optimum Mileage for a Jet Transport, W. M. Stout and R. E. Sliney, Jr.	Je 84
Overseas Jet Flights Create Special Problems, John G. Borger	Mr 101
\$677 Per Hour—Just to Fly Faster! J. D. Donaldson ..	Je 64-65
6 Soviet Transport Airplanes, Secor D. Browne	Ap 53-56, My 26-29
The 1975 Supersonic Jet Transport Will Fly at 65,000 Ft., G. C. Rapp	Je 74-76
ALDIKACTI, HULKI Pontiac Using Modified Closed-Cycle System	Fe 53-54
ALDRICH, J. F. L. New Pressure Pickup Saves Wind Tunnel Test Time	Ag 107
(Co-author S. Tripoli)	
ALEXANDER, R. G. BAT and ABC ..Members-to-be of Army's Airborne Family	No 52-54
(Co-authors T. G. Timberlake, N. P. Oglesby, and W. H. Leathers, Jr.)	
ALLEN, ELEANOR Needed: Better Ways to Use World's Technical Literature	Se 60-61
ALLISON, L. A. Radial Draw Forming	Se 32-35
ALPERSTEIN, M. Fumigation Kills Diesel Smoke ... Improves Performance Mr 74-75 (Co-authors W. B. Swim and P. H. Schweitzer)	
ALSOBROOK, B. R. High-Strength Weldments	Jan 60
ALUMINUM AND ALLOYS All-Aluminum V-Type Engine, James M. Smith and Richard M. Smith	Ag 26-29
Aluminum for Engine Parts? Yes! Eberhard Hundt ..	Ag 66-67
Aluminum Engines	Se 36-38
B-58 Wing Panels, T. G. Pownall	Je 36
Chromium Gives Stainless Properties to Iron-Aluminum Alloys, B. King, J. J. Mueller, N. N. Ida, and F. G. Tate	Oc 48-52
Giving Aluminum Better Wear Properties, Richard M. Smith	Se 48-50
How to Simplify Tests for Primary Creep Data, B. B. Muvdi and C. J. Glenza	Ag 46-48
Light Alloys Impractical For Passenger-Car Bodies, L. M. Forbush	Jan 124
Moly Coatings Give Aluminum Wear-Resistance, Herbert S. Ingham	Se 92, 107
New High-Temp Alloys For Airframe Components, J. C. Ekvall	No 101
Tips on Aluminum Die Castings, J. G. Boehm	Mr 68-69
2000 F Structures Are Possible Now, Harry A. Pearl ..	Ag 70-71
ANDERSON, ALAN P. Well, What About the Small Car?	Je 40-43
ANDRESEN, JACK New Instrument Indicates Take-Off Progress	Ag 72-73
(Co-author E. H. Schroeder)	
ANDREWS, FLOYD A. Range Capability for Turbojet Pilots	Je 60-61
ARMSTRONG, D. A. Contractor Suggests Earthmover Improvements	Ja 105
ATWOOD, J. L. Industry's Role in Defense Is Changing	De 42-45
AUBLE, C. M. DC-8	De 49-52
(Co-author L. R. Jordan)	
AVIATION, MILITARY Contemplated Development Requirements of the Air Force, Col. Paul F. Nay	Jan 85
Flying Platform Shows Steady Advance, J. B. Nichols ..	Je 105
Industry's Role in Defense Is Changing, J. L. Atwood ..	De 42-45
Instrument Pictures Flight for Jet Pilot, Michael V. Fiore	Je 103
Navy Planes Can Land in All Weather, A. B. Winick and J. L. Loeb	Ag 78-79
Range Capability for Turbojet Pilots, Floyd A. Andrews ..	Je 60-61
Ryan Vertiplane, Burt Winslow	Ap 65-66
SAC Has Grown Fast in 12 Years, Brig.-Gen. James B. Knapp	Fe 88
Transition to Missiles Seen to Be a Gradual One, Dr. Horton G. Stever	Fe 90-91
AXLES LeTourneau-Westinghouse's New 32 Ton Rear Dump Truck, Ralph H. Kress	Ag 87-89
New UGL Test OK'd for Army Spec	De 46-48
Passenger-Car Rear Axles, H. Scherenberg, R. Uhlenhaut, and J. Mueller	Fe 37-38
B BAILEY, COL. J. C. Air Force Lowers Major Accident Rate	Je 127-128
BAILEY, W. K. B-58 Features Adhesive-Bonded Structures	Se 39-41
BAKER, M. L. Vapor-Phase Cooling Has Many Applications	Fe 91-92
BAKEWELL, T. W. High-temperature Bearings	Ap 28-33
BAKKE, OSCAR Amendment Advances Civil Air Regulations	Je 122, 124

BAME, J. L. High Compression Ratios Bring a New Problem. . . Rumble	Se 72-76
BARBER, H. M. Behavior of Friction Materials in Construction Equipment Clutches (Co-author J. R. Prosek)	No 60-61
BARISH, THOMAS High-temperature Bearings	Ap 28-33
BARNETT, R. S. High-temperature Bearings	Ap 28-33
BARRETT, G. M. British Locomotive Uses Mechanical Transmission (Co-author L. F. R. Fell)	Mr 51-53
BARRY, E. G. Lubricants Suffer When Subjected to Nuclear Radiation (Co-authors L. W. Manley and A. O. Pukkila)	Ag 50-51
BARTH, V. C. Discussion of "British Locomotive Uses Mechanical Transmission" by L. F. R. Fell and G. M. Barrett	Mr 53
BARTLETT, C. W. Tailoring Suspensions	Se 71
BARTON, H. R. Armour Study Gives New Hypoid Lube Data (Co-author D. L. Powell)	Ap 124, 127
BASSETT, J. V. Rx for Proper Truck Braking	Se 38
BATTERIES Longer Life for Truck Electrical Units, H. L. Hartzell Missile Auxiliary Power Systems, E. I. Brown and R. W. McJones	Ag 49-50 Jl 82-83
BATZOLD, J. S. Solar Battery Herald's Sun-Power Age, Ralph T. Kiefenstahl	Jl 122
Radioactivity Traces Piston-Ring Wear (Co-authors J. V. Clarke, Jr., and J. F. Kunc)	My 81-83
BEACH, JOHN F. Fuel Additives Reduce Gum Deposits	Je 102
BEAN, NEVIN L. Russian Production Making Rapid Strides	No 82-84
BEARINGS AND BEARING MATERIALS High-temperature Bearings, Howard B. Johnson, Thomas Barish, R. J. Eschborn, C. M. Ong, R. S. Langdon, Arthur S. Irwin, Carl L. Dellinger, R. S. Barnett, Robert L. Johnson, W. H. Ragborg, and T. W. Bakewell	Ap 28-33
Lubrication of Railway Journal Roller Bearings, P. C. Paterson	Ag 112, 114
Zytel Works Well in Heavy-Duty Jobs, J. D. Young	Fe 88
BECK, ARNOLD I. New Open Ejection Seats (Co-author George Hildebrand)	Oc 67-69
BEHRENS, DONALD W. Road Developments Affect Transmissions	Ap 129
BEHRENS, M. D. High Compression Ratios Bring a New Problem. . . Rumble	Se 72-76
New Research Tool Aids Combustion Analysis (Co-authors J. A. Robison, R. G. Mosher, and J. M. Chandler)	Jan 52-53
BEIER, K. A. Variable-Speed Designs Best Fan-Noise Solution (Co-author T. J. Weir)	Se 88
BERCHTOLD, MAX The Complex Diesel Supercharger	Se 68-71
BERKEY, KERRY L. Lubricants Keep Pace with Turbine Engines	Ap 60-63
BERRY, WALLACE S. Rambler Puts Air Springs on Rear Only	Fe 51-52
BERT, J. A. Time a Factor in Knock Correlations (Co-authors J. H. Macpherson and K. L. Kipp)	Ap 127, 129
BERTSCH, J. F. Chevrolet Suspension Features Interchangeability (Co-authors Kai H. Hansen and R. E. Denzer)	Fe 56-57
BIDWELL, JOSEPH B. Electronic Chauffeur May Guide Car of Future (Co-author Roy S. Cataldo)	Se 64-67
BIGGE, D. M. Plated Steel Parts Do Best in Corrosion Test	Fe 89
BINGHAM, JAMES J. Jet Aircraft Shrinking the World	Je 122
BIRKENHAUER, HENRY F. Antarctica Affords Automotive Test Ground	Jan 120
BLACK, J. F. Fusion Power	Ag 59
BLACKBURN, E. F. Multifuel Engines	De 70-71
BLACKWOOD, A. K. Correction Factors Sought For Diesel Engine Test Code (Co-author M. A. Elliott)	Jl 107-108
BLISS, CONRAD D. 10 Ways to Cut Missile Production Costs	Ag 33
BLIZZARD, WILLIAM D. Turbocharger Lifts Diesel-Engine Power	De 100
BLUME, NEIL L. The New Edsel	Fe 69-71
BODEN, R. H. The Ion Rocket Engine Can Produce Usable Thrust	Ap 67-68
BODIES Light Alloys Impractical For Passenger-Car Bodies, L. M. Forbush	Jan 124

1958 Truck Design, Walter G. Patton	Jl 89-104, Se 78-87
Trends in 1959 Passenger Car Design, Walter G. Patton	De 25-40
Utilized Design Adapted to Low Cars, H. W. Johnson	Jl 122
What Car Structure Best Survives Crashes? D. M. Severy and J. H. Mathewson	Se 107
BOEHM, J. G. Costs Cut with Self-Tapping Inserts	Fe 118, 123
Tips on Aluminum Die Castings	Mr 68-69
BOLLINGER, R. H. Battle to Quiet Cars Grows Hotter (Co-author H. N. McGregor)	My 32-33
BOLTS AND NUTS A New Tool for Use in Selecting the Right Gasket, E. M. Smoley	My 76-78
BOND, JOHN R. Design, Construction, and Performance of the Citroen DS-19	Mr 28-32
BORGER, JOHN G. Overseas Jet Flights Create Special Problems	Mr 101
BOWER, E. S. Automatic Transmission Seals Undergo Changes (Co-author B. C. Vandermar)	Ap 130, 132
BOYER, RAYMOND F. More Plastics Are Coming for Cars	Fe 84-85
BRAID, MURRAY D. Evaluation Method Spots Automation Opportunities	Fe 92
BRAKES Brake Development, William Tauss	Jl 37
Caliper Disc Brakes, S. E. Sherlock	Je 43-45
Liquid-Cooled Brakes Get Rid of Heat Faster, J. D. Dudley	No 102
Mechanical Brakes Stop Trucks in Trouble, J. Myers	Ap 122
1958 Truck Design, Walter G. Patton	Jl 89-104, Se 78-87
1000 F Pneumatic Servo System, C. H. Cannon	Ap 70-71
Power and Balance Are Key to Good Braking, H. T. Seale	Jan 122-123
Rx for Proper Truck Braking, J. V. Bassett, Jr.	Se 38
Thunderbird for 1958, D. N. Frey, J. R. Hollowell, and J. L. Martin	Ag 40-44
Trends in 1959 Passenger Car Design, Walter G. Patton	De 25-40
BRAUN, EDWARD L. Airborne Computer (Co-author Geoffrey Post)	Fe 63-66
BREESE, W. L. Work Sampling—An Aid to Cost Control	My 107
BRENNEKE, A. M. New European Automobile Designs	No 30-31
BROWER, GILBERT K. Diesel Users Baffled by Fuel Specifications (Co-author William Lenz)	Oc 133-134
BROWN, E. I. Missile Auxiliary Power Systems	Jl 82-83
(Co-author R. W. McJones)	
BROWN, G. H. Station Wagon Grows in Popularity	Je 100-101
BROWNE, SECOR Russian TU-114 Turboprop Transport	Je 61
3 Russian Aircraft Designers and Their 6 Soviet Transport Airplanes	Ap 53-56, My 26-29
BRUMBAUGH, GEORGE U. Truck Must Fit Job For Operating Profit	Ap 115-116
BUCHLE, K. Adhesive-Bond Future Challenged by 1000 F Uses	Mr 46-47
BURKETT, W. B. Two-Stroke Engine	Jl 105-106
BURNETTE, JOHN Modulator Reverser Control Tames Jet Thrust (Co-author Donald Moses)	Jl 38-39
BUS DESIGN AND PERFORMANCE Hydraulic Control System "Unsatisfactory" for Buses, T. H. Thomas	Ag 38-39
BUTTERWORTH, A. C. Time and Fuel (Co-author G. E. Hull)	Ap 43
C	
CALLAHAN, JOSEPH M. How An SAE Paper Is Born	Je 27-28
CAMPBELL, J. O. Cooperative Collision Detection (Co-author Y. J. Liu)	My 84-85
CAMPBELL, WALTER J. Self-Development Process Key to Higher Production	Ag 111-112
CANNON, C. H. Answers Found to 1000 F Wear and Galling Problems	Ag 86
1000 F Pneumatic Servo System	Ap 70-71
CANNON, W. A. Oxidation Catalysts Reduce Hydrocarbons in Automobile Exhaust Gas (Co-authors E. F. Hill and C. E. Welling)	Jan 36-37
CANRIGHT, R. B. Nike Ajax Propellants	Mr 40
CAPUTO, I. A. Lab Method Improved For Antiknock Rating (Co-authors H. J. Sewell and H. A. Toulmin)	Fe 90
CARBURETORS AND CARBURETION Carburetor Vapor Loss, J. T. Wentworth	My 50-53
Fuel Injection. Just How Good Is It? A. E. Felt, D. L. Lenane, and K. W. Thurston	My 76-75
How to Prevent Carburetor Icing, I. T. Rosenlund	Fe 114
Ways Sought to Cut Throttle Deposits, K. B. Valen'ine	Jl 117

CARIS, D. F.		Timberlake, R. G. Alexander, N. P. Oglesby, and W. H. Leathers, Jr.	No 52-54
17/1 Compression Ratio Gives Peak Efficiency for Gasoline Engines	Se 28-30	Behavior of Friction Materials in Construction Equipment Clutches, J. R. Prosek and H. M. Barber	No 60-61
(Co-author E. E. Nelson)		Computer Determines Maximum Pay Loads for Cranes and Excavators, J. B. Peyrot, H. Knudsen, and L. M. Richards	Oc 36-38
CASTINGS		Computer Simplifies Purchasing Decisions, Charles S. Knox	Je 29-31
All-Aluminum V-Type Engine, James M. Smith and Richard M. Smith	Ag 26-29	Contractor Suggests Earthmover Improvements, D. A. Armstrong	Je 105
Aluminum Engines	Se 36-38	Diesel Promising for Future; Gas Turbine Slated for Larger Sizes, Peter Kyropoulos	Oc 53-55
4 Ways to Reduce Casting Tolerances, S. C. Massari	Jl 126	Evaluating Tractor Steering and Traction, W. J. Adams, Jr.	Oc 134, 136
Giving Aluminum Better Wear Properties, Richard M. Smith	Se 48-50	IHC's Tractors Feature New Power Steering Unit, William W. Henning	No 103
Tips on Aluminum Die Castings, J. G. Boehm	Mr 68-69	Radiator Capacity Limits Hydrotarder, Albert H. Hetzel and Claude B. Petty	No 101
CATALDO, ROY S.		Torque Converter, F. J. Strand	Mr 95
Electronic Chauffeur May Guide Car of Future	Se 64-67	Tractor Trends—Design, Cost, and Performance, B. G. Rich and W. H. Worthington	My 105
(Co-author Joseph B. Bidwell)		Turbocharged Diesel Responds OK to Load Change, W. J. Lux	Oc 80-81
CATRON, PAUL L.		Turbocharging Diesels for Earthmoving Machines, John Cazier	Jan 117-118
Don't Overlook Merits of Liquid Oxygen Systems	Jan 78-80	2-Engine Powerplant Lacks Flexibility & Economy, K. M. Leech	Je 104
CAZIER, JOHN		COOK, R. K.	Fe 91
Turbocharging Diesels For Earthmoving Machines	Jan 117-118	ELECTRICAL ANALOGIES HELP ANALYZE MECHANICAL IMPEDANCE	
CHANDLER, J. M.		1958 Truck Design, Walter G. Patton	Jl 89-104, Se 78-87
New Research Tool Aids Combustion Analysis	Jan 52-53	Radiator Capacity Limits Hydrotarder, Albert H. Hetzel and Claude B. Petty	No 101
(Co-authors J. A. Robison, M. D. Behrens, and R. G. Mosher)		Thunderbird for 1958, D. N. Frey, J. R. Hollowell, and J. L. Martin	Ag 40-44
CHAPMAN, C. S.		Vapor-Phase Cooling Has Many Applications, M. L. Baker	Fe 91-92
New Turbine Added to Buick's Dynaflo	Ap 84-89	Variable-Speed Designs Beat Fan-Noise Solution, K. A. Beier and T. J. Weir	Se 88
(Co-author Forest McFarland)		COON, J. S.	Se 115, 117
